

Value chain approach to make the hydrogen value chain financeable

## Feasibility quantitative & theoretical

---

- Comparing chains
- Optimizing costs
- Rate of return
- End-user prices
- Subsidies & trading mechanisms such as H2global

**Common  
Economic  
Model**

**H<sub>2</sub>Gether**

## Financeability qualitative & practical

---

- Assessing supply chain risks
- Risk mitigation strategies
- Creating contractual agreements
- Suitable financing structures
